

Nureva™ Span™ ideation system WM210i

New ideas keep you in business. That's why teams everywhere hole up in meeting rooms to scribble on flip charts and paper the walls with sticky notes. The Span ideation system brings this proven process into the digital age. A panoramic projector provides an expansive virtual canvas where teams share and iterate ideas. Working in the cloud makes it easy for team members to contribute from their own devices. It's ideation for the digital generation – familiar, simple, flexible.

Benefits

- **Digital engagement** – Move beyond the familiar process of collaborating with sticky notes and flip charts and go digital. Capture notes and images as artifacts you can edit and manipulate and incorporate real-time contributions from remote colleagues.
- **Persistent content** – Ideation thrives when teams can see a lot of ideas and inputs simultaneously during the creative process. Fill the ultrawide canvas with *all* your team's ideas.
- **Panoramic 130" display** – The difference between a good idea and a game changer can be the amount of space upon which possibilities can unfurl, proliferate, mushroom and merge. Interact with ideas on an industry-leading 10' (3.1 m) panoramic display with software that provides 40' (12.2 m) of digital workspace.
- **Active collaboration** – More ideas yield more possibilities. Harness the creative energy of collaborating seamlessly alongside your teammates on the digital canvas, and incorporate input from team members working on their devices.

Hardware components

Panoramic projector

Incorporates solid-state illumination (SSI) for unprecedented, ultrawide interaction

- 0.25 throw ratio – delivers ultra-short-throw projection
- 130" (3.3 m) diagonal image – offers 10' (3.1 m) of collaboration space
- 1800:1 (native)/10,000:1 (APM) contrast ratio – creates brilliant, consistent images
- 25,000 hours of life – provides the same useful life as flat-panel displays

Adjustable projector mount

Allows for easy and secure installation in any meeting room or group space. The mount swivels and tilts via front-facing controls for effortless alignment and image sizing.

Touch module

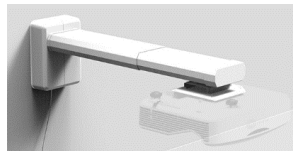

Enables simultaneous multiuser and multitouch interaction with digital content across 10' (3.05 m) of virtual canvas.

Specifications

Panoramic projector

- Solid-state illumination
- 3000 lumens
- 16:6 aspect ratio

Wall mount

- Aluminum extrusion
- Single stud support
- Knob-controlled adjustment

Touch module

- Red laser alignment
- Two-knob adjustment
- Auto/manual 9-point calibration

Dimensions	15.1" x 12.1" x 3.4" (38.3 x 30.8 x 8.6 cm)	6.9" x 24.7" x 8.3" (17.6 x 62.7 x 21.1 cm)	5.8" x 1.5" x 1.9" (14.7 x 3.8 x 4.8 cm)
Weight	12.2 lb. (5.5 kg)	16.5 lb. (7.5 kg)	0.5 lb. (0.2 kg)
Shipping dimensions	20.4" x 16.5" x 12.5" (51.8 x 42.0 x 31.8 cm)	21.0" x 11.8" x 7.3" (53.4 x 30.0 x 18.5 cm)	Accessory kit (included with projector)
